## Company Profile

We at Intraweb, understand your need to stand out of the crowd...to be UNIQUE and to be ORIGINAL. Keeping this in mind, right from our inception we have churned out quality web solutions that have catered to the needs of hundreds of corporate houses, small & medium enterprises and individual firms.

We are one of the leading service providers in the field of software Development, website development and Customize Web Solutions from last 9 years.

As a trusted software development company, we offer our clients strategic web solutions geared for taking the competition head on. With our head office in Mumbai, we have offered services around the globe and have invariably attracted a fabulous number of clients only because of the acceptance of our work and dependable customer service.

Our understanding of business environment helps in maximizing the value of the relationship with clients. At Intraweb, we have served a wide range of industries and business environment clients.

**Our Mission:** To deliver the best to our clients | To endeavour for excellence | To preserve ethics and uncompromising integrity in business

**Our Vision :** To continuously grow, share and learn along with the changing web scenario | To communicate and use the feedback from clients for self improvement and growth | To put in the best efforts in order to deliver the best results as well as a service beyond expectations to our clients.

## **What we do?**

We are focusing on small to medium scale companies, since these companies find the budgetary limitations for using international ERP packages. We believe that our product could be an ideal solution for them having the same world class software And security environment at very competitive price.

- Enterprise Resource Planning (ERP)
- Supply Chain Management (SCM)
- Customer Relationship Management (CRM)
- Sales and Distribution (SD)
- Financial Accounting Software (FA)
- Website development
- Domain Registration/Renewal & Hosting
- Search Engine Optimization /Webmarketing

**With our huge experience with working with various software projects, we guarantee a 100% implementation with our mini ERP solution named Intrasoft. The software will be flexible enough to suit your current as well as the future needs.**

### **The major advantages derived from Intrasoft**

1. 100% guarantee of implementation.
2. Allows unlimited number of user.
3. data to be stored centrally in most secured servers
4. No need of storing data on local disk
5. Direct e-mail facility of any report from the system.
6. User Level Password access for each menu option.
7. Multiple Location Integration

### 3. The Team

At IntraWeb we believe in nurturing young minds hence we have a Young highly enthusiastic Information Technology team supported by senior Experts . The team is well integrated and equipped with advanced technologies, which enables us to deliver value for money to its clients. The extensive in-house training program ensures that the team is not only ready to perform but also gives it the ability to rapidly develop deep expertise in any technology and business area.

Our developers have the technological and functional expertise for implementing **custom business applications** and software development that addresses all critical requirements of large businesses:

- Multiple users
  - Large amounts of data
  - Intensive business processes
  - Integration of a variety of systems

We communicate the details of all requirements and specify them in well-structured documentation. Our knowledge of the business domain and quality analytical work ensures that you get exactly what you need at the end of the project.

User Id And Password for Security. The database locks in SQL Server prevent multiple users from updating same records at the same time in database (For Admin Side). Payment Gateway Rollback on any interruptions. Administrator Handles all customer Records by authority only.
